

CVP EVEREST

High-velocity automated packaging

Boost your packaging strategy with fully-automated, high-throughput technology.

There are many driving factors behind the parcel packaging designs needed today. Customers want fast shipping in sustainable packaging. Carriers want lower shipping volume. Companies want lower labour, packaging and shipping costs. While this can seem overwhelming, there is a solution that can solve all of these packaging issues and more: automated packaging technology.

The CVP Everest Automated Packaging Solution optimizes all steps of package fulfillment by creating fit-to-size boxes for variable-dimension, single- or multi-item orders. With the CVP Everest you can see immediate return on investment and package orders with complete confidence.

Lower labour costs
by replacing up to 20 manual packing stations while increasing packaging efficiencies.

Volume reduction up to 50%
by creating the smallest parcel needed at the lowest expense.

Reduction in material costs
reduce corrugate spend and minimize or eliminate void fill usage with a fit-to-size box.

Avoid damaged goods
with an extremely strong box-protecting your valuable items reducing returns.

High velocity packaging
allows later cut-off times due to the speed of packaging, enable same day delivery.

Alleviate peak season challenges
with auto-boxing, meeting higher customer and company demands.

Improve customer experience
with branded corrugate, customized enclosures and strong shippingproof boxes.

Strengthen sustainability
as consumers want to purchase from eco-friendly companies.

The CVP Everest Automated Packaging Solution.

1,100 parcels per hour is the new standard.

Our fit-to-size automated packaging solution measures, constructs, seals, weighs and labels each single or multi-item order in as little as three seconds. The CVP auto-packs single- or multi-item orders as well as soft or hard goods without any additional equipment or operators needed.

This proven packaging solution generates the smallest parcel needed while optimizing all steps of parcel fulfillment, saving on labour, shipping and material costs.

Utilized in a variety of industries, including e-commerce, retail, third-party logistics (3PL), wholesale and manufacturing, automated packaging can improve the customer experience while solving many of today's shipper's biggest pain points.

The pinnacle of automated packaging technology.

One, two, or three corrugate feeders use agnostic fan-fold material for quick replenishment, reduced inventory, and usage savings.

One, two, or three corrugate feeders for the lidding process.

Reduce shipping costs by creating the smallest parcel needed at the lowest expense.

Two lid applications work in parallel to fully seal each custom box at high speeds.

Reduce labour costs by eliminating up to 20 packing stations and ensuring smooth workflows even during peak production periods.

Carrier compliant labels are created and applied to ensure accurate delivery. High-speed print and apply systems with 4,500 labels per roll.

Single or dual induct stations to produce packing speeds and maximize operational efficiency.

Scanner captures 3D image of each unique parcel to determine the minimum box size required.

Increase productivity as single- or multi-item orders are scanned and custom boxes are configured.

Less environmental impact by replacing material usage and box size for a smaller carbon footprint closure.

Adhesive sealing of the box bottom is secured by side guides for complete closure.

Customer focused service solutions Quadient offers remote support, on-site scheduled service calls, and a dedicated OEM parts distribution center.

Extremely strong box will protect your valuable items and reduce returns.

Wide Range of Package Sizes
Box anything from a pair of headphones to a large vacuum, and all sizes in between.

About Quadiant

Quadiant is the driving force behind the world's most meaningful customer experiences. By focusing on four key solution areas including Customer Experience Management, Business Process Automation, Mail-related Solutions, Automated Packaging Solutions and Parcel Locker Solutions, Quadiant helps simplify the connection between people and what matters. Quadiant supports hundreds of thousands of customers worldwide in their quest to create relevant, personalised connections and achieve customer experience excellence. Quadiant is listed in compartment B of Euronext Paris (QDT) and belongs to the SBF 120 index.
